

Please do not replace the K-LOVE FM station with a LPFM station. This is the only station that provides encouraging music and talk that my 8 year old daughter and I can listen to both at home and in the car. There is not another station that plays contemporary christian music in our area. I would like to encourage you to keep the FM stations available for those of us that would like "family friendly" programming.

Thanks in advance for your consideration.

Marcia Higgs
